

Our design capabilities are only limited by your imagination

Steel Landscape Dump Body

Cost effective solutions for transporting landscape material and/or construction debris. We build strong, heavy duty dump bodies, for a tough environment. Underbody and front mount hoists able to raise loads up to 30,000lbs.

Aluminum / Steel Chipper Bodies

Fully enclosed chipper specific or add a removable chipper lid to a dump body for seasonal flexibility.

Hybrid Landscape Dump Body

Rigid steel landscaping dump body with the advantage of lightweight aluminum folding sides and tailgate.

Service Body

Custom designed cabinets mounted to truck chassis. Cabinets can be equipped with pull out drawers, fixed or adjustable shelves.

Flat Beds

Both steel and aluminum flatbed bodies available

Aluminum Landscape Dump Body

Lightweight bodies ideal for transporting landscape material and/or construction debris.
